

in association with

cordially invites you to the

Continuing Medical Education Program

Greetings from SPARSH Hospitals!

Musculoskeletal conditions are of a major concern for disability in the community and a multi-centric approach is required to manage such patients. Primary care physicians who are the back bone of the healthcare system, can bridge the gap in the community bringing people better bone health and quality of life. SPARSH Hospitals in association with AFPI (Association of Family Physicians of India) Karnataka chapter, is conducting a CME covering various related topics.

SPARSH Hospitals is synonymously known for its cutting edge work in orthopaedic care and is a destination for all health related complexities. We have the finest Orthopaedic surgeons the Country can offer.

SPARSH Hospitals cordially invites all the Family Physicians, Orthopaedic registrars and consultants to attend the CME where unmatched specialists in the field of **Orthopaedics and Family Medicine** will enrich you with interactive sessions.
